

CPAC

*Oklahoma Statewide Survey, January 12-15 2026
n=500 Registered Voters
MoE +/- 4.4%, 70% SMS / 30% live caller,*

Key Findings

Broad bipartisan support for criminal justice reform

- Nearly three-quarters of Oklahoma voters support criminal justice reform, including strong majorities overall and among Republicans.
 - *(73% support; only 8% oppose)*
- Supporting reform is a **high-reward, low-risk** political position: voters across parties are far more likely to support a candidate who backs reform than oppose them.
 - *(61% more likely vs. 8% less likely)*

Past voter-approved reforms remain very popular

- Voters continue to strongly support prior reforms, including State Questions 780 and 78.
 - *(SQ 780: 73% support; SQ 781: 76% support)*
- Voters clearly distinguish addiction-driven and low-level offenses from serious crime and are comfortable reserving prison for more serious threats to public safety.
 - *(Strong support for treatment/diversion and reduced incarceration)*

Strong public support for additional, safety-focused reforms

- Large majorities support investing more in treatment and diversion and using savings to reduce reoffending and improve outcomes.
 - *(81% favor more treatment/diversion; 66% say reducing incarceration is important)*
- Voters strongly support specific reforms under consideration this session, including:
 - Prosecutor-initiated resentencing *(76% support)*
 - Smarter parole and earned-release policies *(73% support; 80% support earned time)*
 - Expanding Clean Slate eligibility for people who remain crime-free *(87% support Clean Slate law; 80% support expansion)*
 - Eliminating excessive court fees that make reentry harder and increase repeat offending *(77% support)*

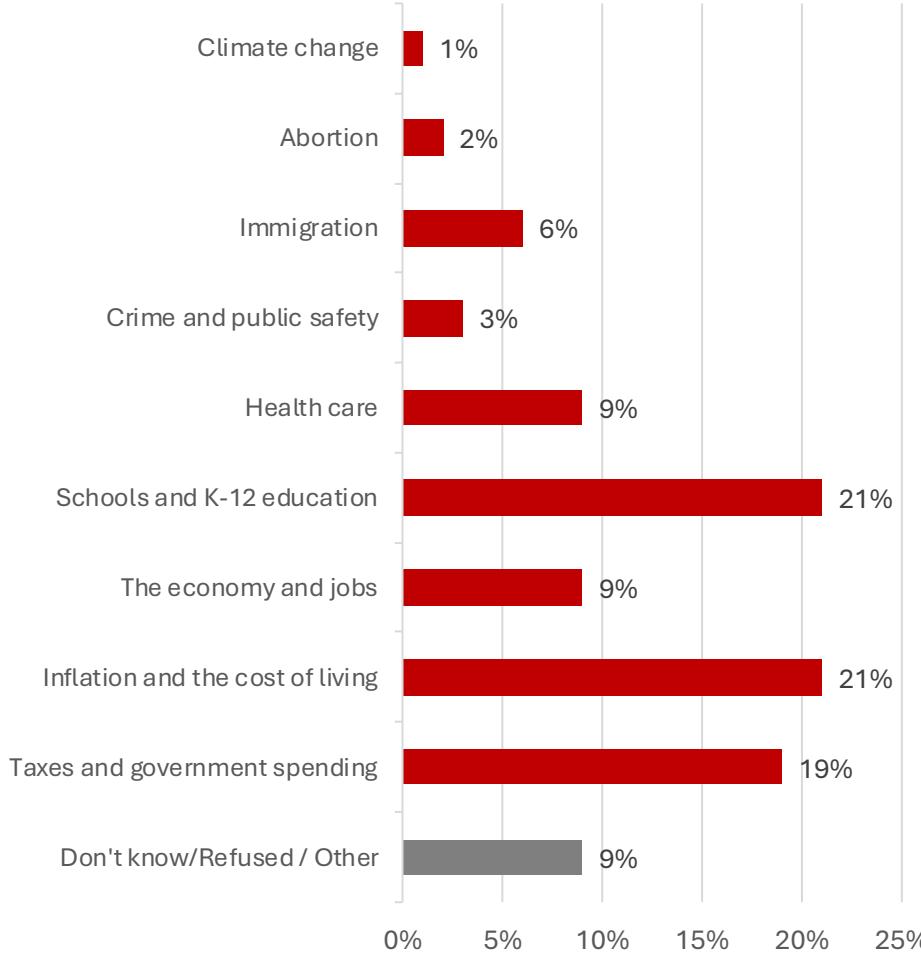

Voters want a system that is tough, fair, and outcome-focused

- Crime and public safety matter, but voters are **not in a panic environment**.
 - *(Only 3% name crime/public safety as a top issue; 92% feel safe)*
- Voters prioritize accountability and public safety **alongside** rehabilitation, treatment, and second chances when those approaches make communities safer.
 - *(Consistent majorities favor fairness, treatment, and effectiveness over purely punitive approaches)*

CRIMINAL JUSTICE REFORM LANDSCAPE

Q13. Changing the criminal justice system

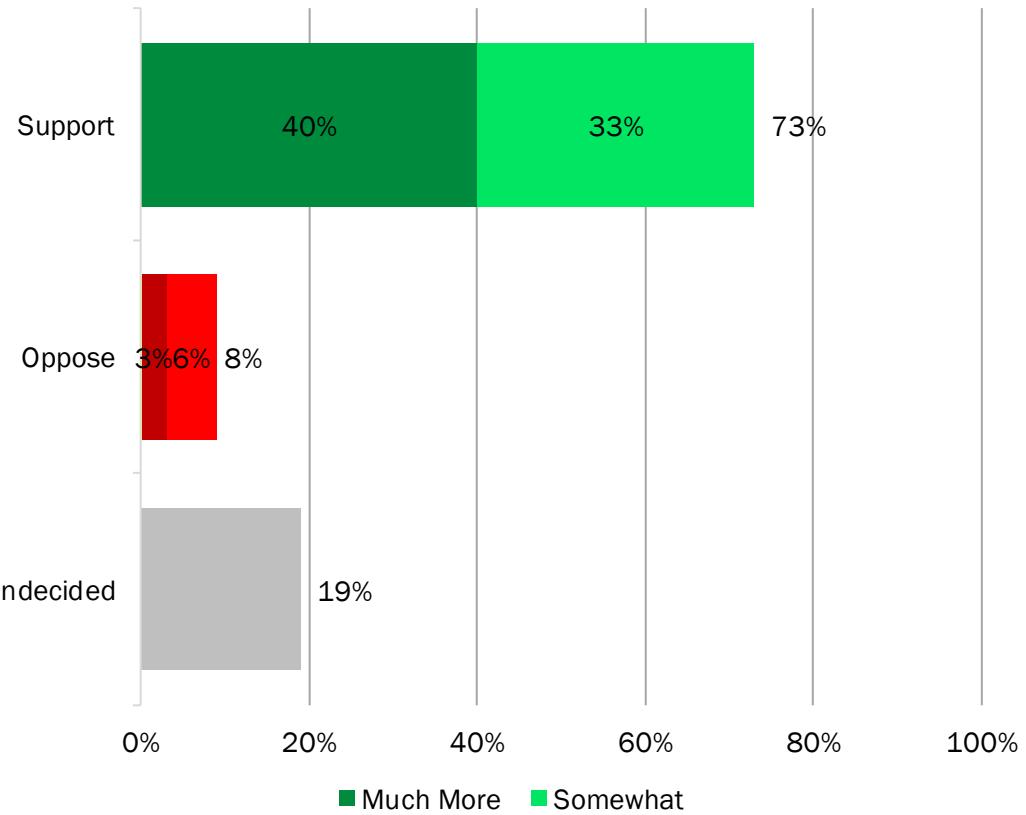

Q13. When thinking about the criminal justice system in Oklahoma, which includes the police, courts, probation, parole, jails and prisons, generally speaking, do you think the system needs a complete overhaul, major changes, minor changes, just slight tweaks, or no change at all?

Demos		Q13. Criminal Justice System Changes Needed

Q16. Stitt on criminal justice

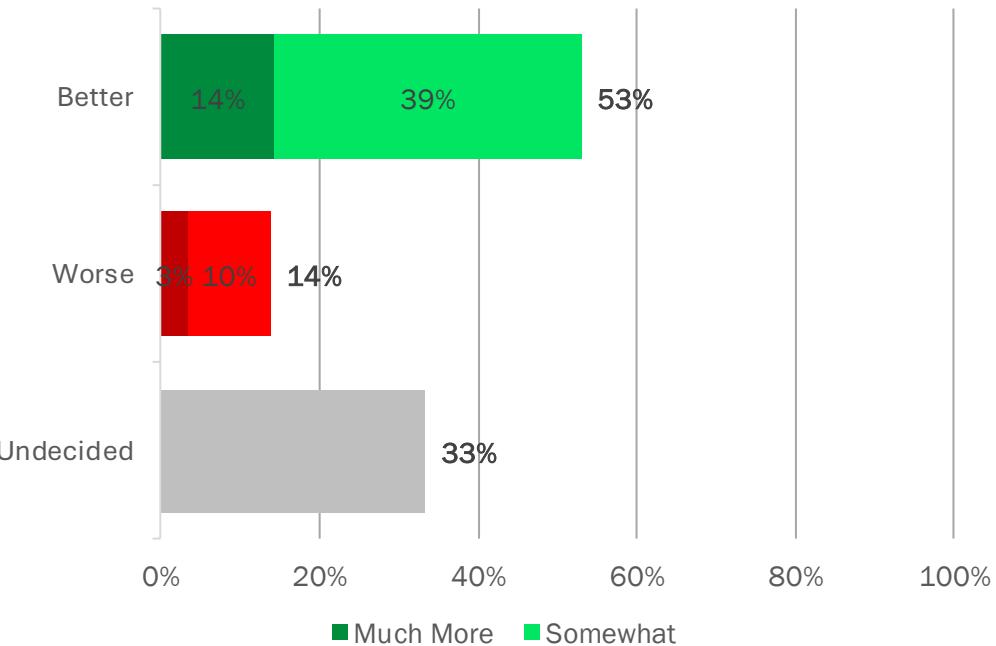

Q16. "Oklahoma is a law-and-order state. We support our law enforcement. We punish criminals. We protect our citizens. I want to put criminals on notice: you are not welcome here and you will serve time. We believe in fair sentences, and we believe in second chances. We've worked hard here to make sure we are prosecuting crimes and rehabilitating those with substance abuse and mental health struggles, and we are focusing on eliminating barriers for those who have served their time."

Q20-25. Reasons to reduce jail and prison population (GOP)

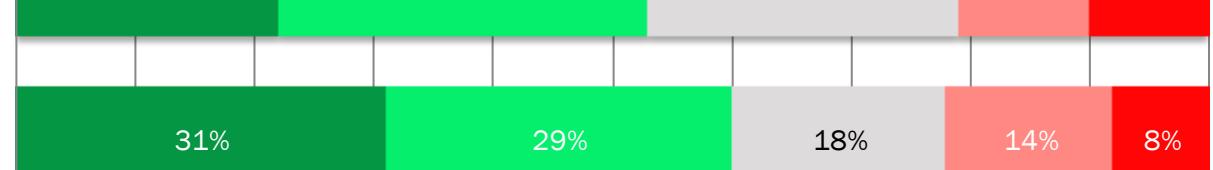

Q20. Taxpayers in Oklahoma spend \$500 million on the prison system each year.

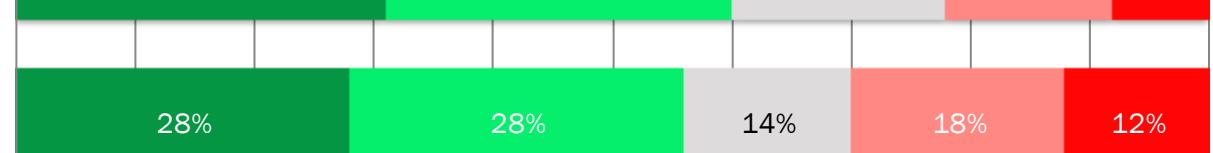

Q21. Research shows that long prison sentences do not make us safer.

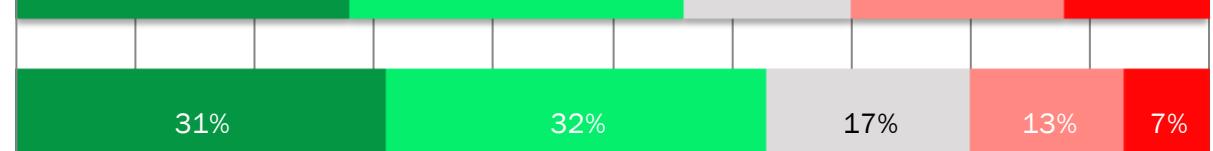

Q22. Oklahoma has the fourth highest imprisonment rate in the country, more than every other state besides Louisiana, Mississippi, and Arkansas.

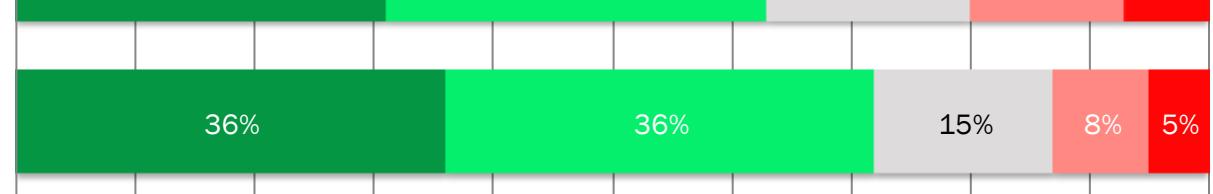

Q23. Oklahoma has the fourth highest imprisonment rate for women in the country, separating thousands of women from their children each year.

Q24. An estimated 1 in 4 Oklahomans has a criminal record and convictions cost Oklahomans an estimated \$4 billion in lost earnings each year.

Q25. Oklahoma has safely reduced incarceration over the past 15 years, pairing a 40 percent decrease in the crime rate with a 17 percent decrease in the imprisonment rate from 2009 to 2023.

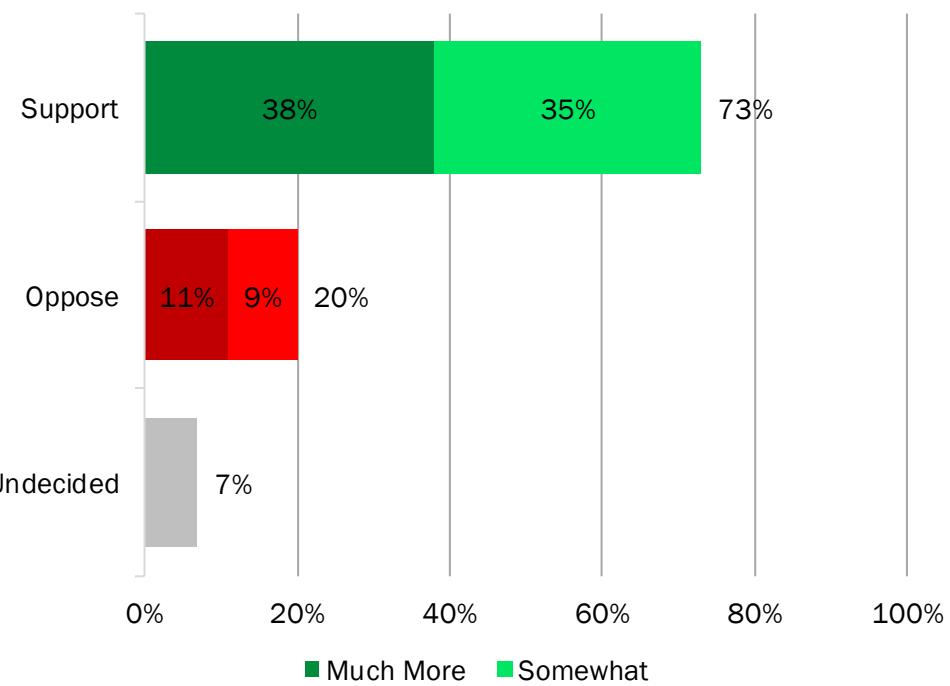

■ Very Important ■ Somewhat Important ■ Undecided ■ Somewhat Unimportant ■ Very Unimportant

BUILDING ON THE SUCCESS OF PAST LEGISLATION

Q26. State Question 780

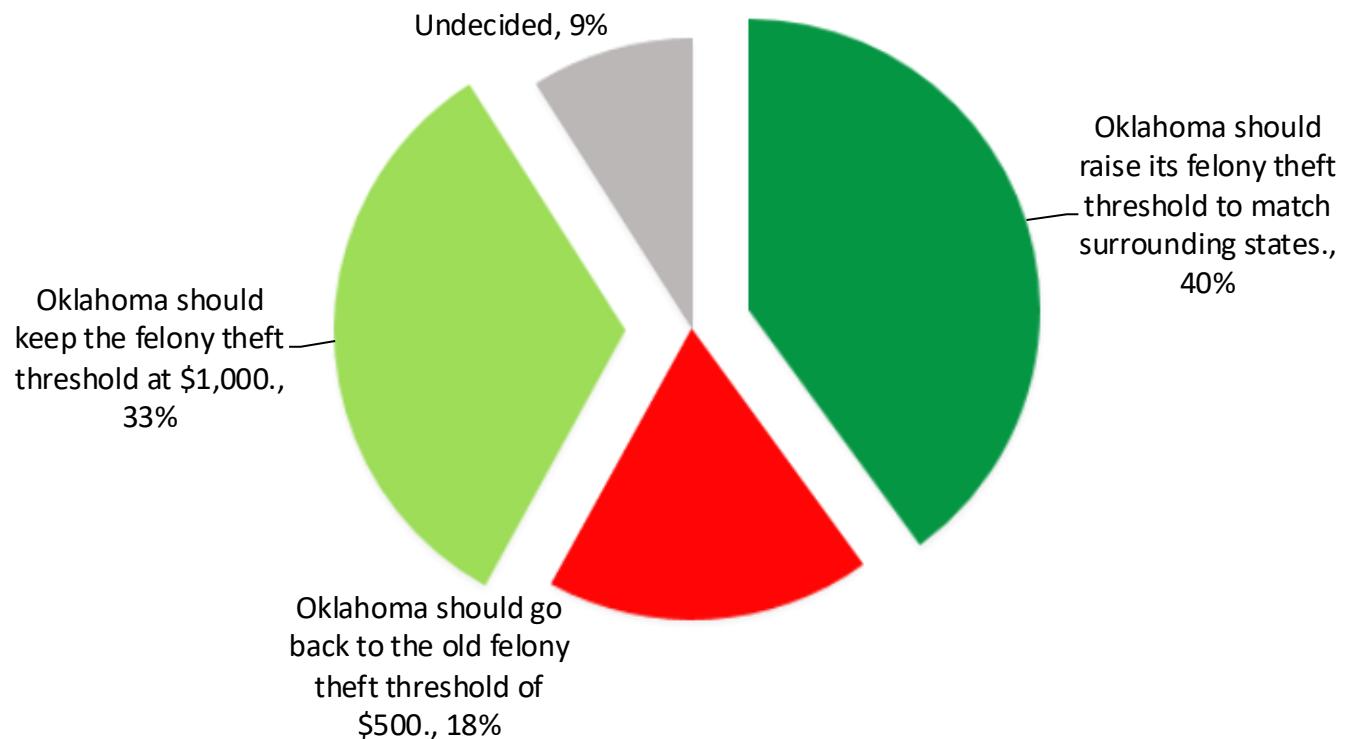

Q26. In 2016, Oklahoma voters approved State Question 780 which reclassified simple drug possession for personal use from a felony to a misdemeanor and raised the amount of stolen goods that require a felony sentence (the felony theft threshold) from \$500 to \$1,000, making those offenses eligible for a sentence of up to one year in jail but removing the possibility of longer prison time. Now that this has been law for a few years. Would you say you support or oppose the measure?

Demos		Q26. Support State Question 780

Q30. Clean Slate Policies

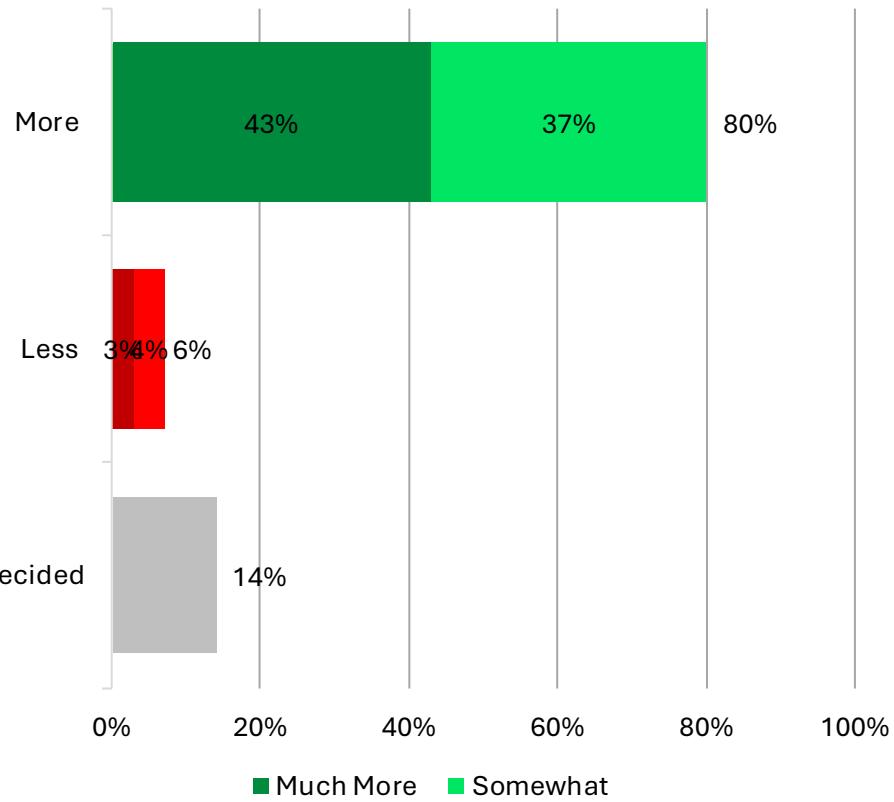

Q30. Clean Slate policies allow for individuals convicted of a nonviolent offense, and who have remained crime free for an extended period of time, to have their criminal records sealed. This gives individuals a better opportunity to gain meaningful employment and stable housing. Oklahoma passed Clean slate legislation in 2022. Now that this has been law for a few years, would you say you support or oppose the law?

Q32. Survivors' Act

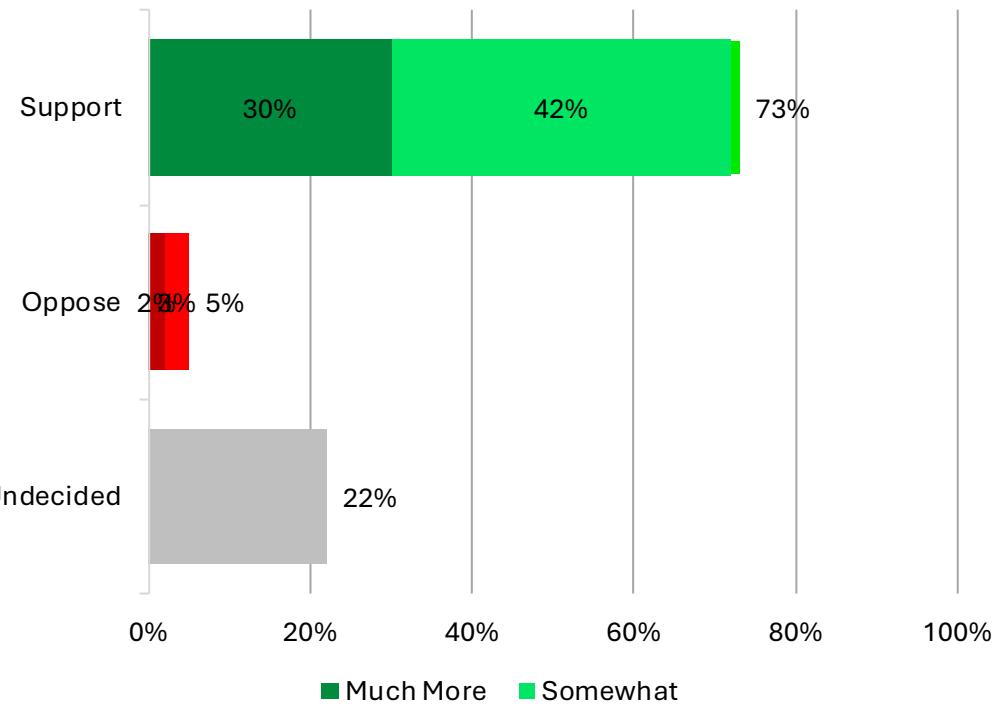

Q32. In 2024, Oklahoma legislators passed the Oklahoma Survivors' Act, which allows judges to consider whether domestic violence and human trafficking played a role in the commission of a crime when imposing prison sentences and allows people currently in prison to petition the court for resentencing if they would have been eligible for a shorter sentence under the new law. Based on what you know, would you say you support or oppose the Oklahoma Survivors' Act?

PROPOSED CRIMINAL JUSTICE REFORMS

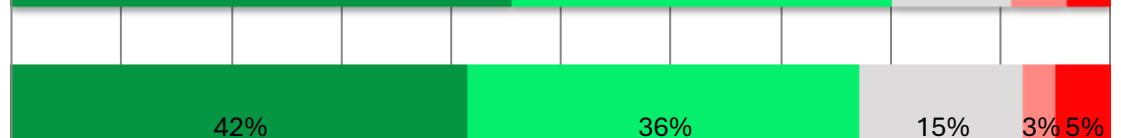

Q35-39 A. Proposed reforms

35A Increasing the amount of time people on probation can earn off their sentence for following the rules of supervision and achieving educational milestones such as earning a high school diploma.

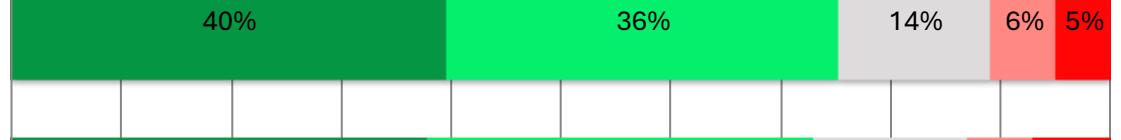

36A Requiring courts to use a risk assessment to determine whether an individual should stay in jail or be released on bond before trial.

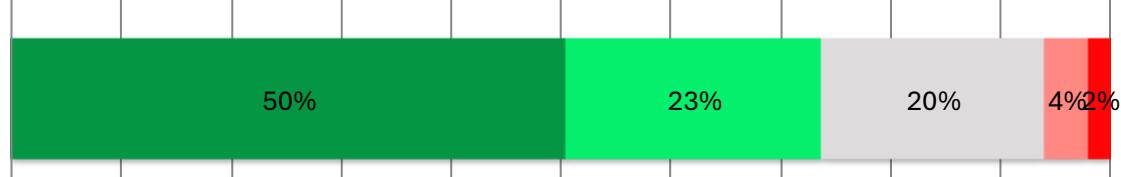

37A Giving prosecutors discretion to review cases and bring them before a judge to reduce sentences that are no longer in the interest of public safety.

38A Allowing more people in prison to be considered for release by the Oklahoma Pardon and Parole Board on a case-by-case basis if there is no opposition from a victim.

39A Requiring jails and other local criminal justice agencies to collect and report data on numerous metrics related to the function of the state's public safety system.

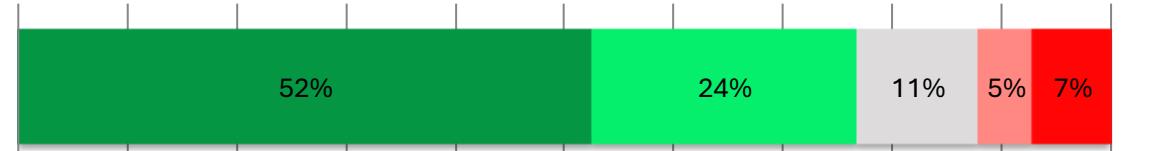

■ Strongly support ■ Somewhat support ■ Undecided ■ Somewhat oppose ■ Strongly oppose

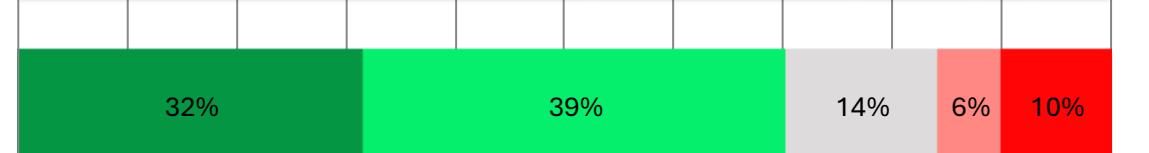

Q35-39 B. Proposed reforms

39.B Increasing resources for law enforcement agencies to solve more crimes.

38.B Allowing more people in prison to be considered for release by the Oklahoma Pardon and Parole Board on a case-by-case basis if they are diagnosed with a terminal illness or are physically incapacitated.

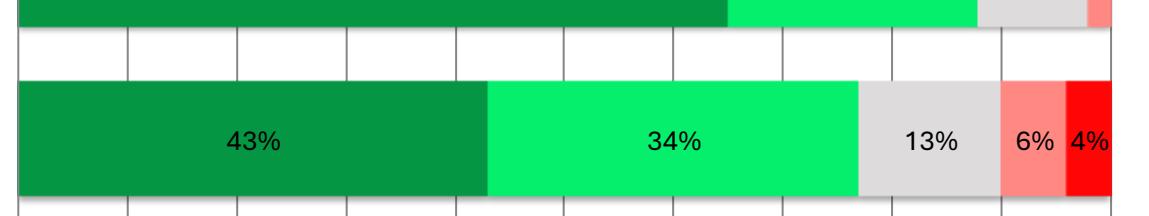

37.B Requiring that courts send text message reminders to defendants before their court date.

36.B Establishing that defendants have the right to legal counsel at the initial hearing on their charges and requiring those hearings to be held within 72 hours after arrest.

35.B Eliminate some of the court fees that are unrelated to the punishment for the crime or compensating the victim.
